

Notes on Smith Cabinets

General information:

Each square on the graph equals 2”.

Most cabinets are to be natural cherry, with simple, flat-panel shaker doors on cabinets and plain drawers.

If white cabinets are less expensive than natural cherry, those noted with a ** may be bid in white (please specify).

No particle board or medium-density fiberboard or anything like that in the construction.

Small toe kick.

Adjustable shelves.

Strong drawer construction, especially bottom.

Full-sized drawers that fill the cabinet.

High-quality, metal, ball-bearing drawer extensions.

Soft close

Fine, hard finish.

See more info here — please read: <http://pix2brix.com/8-features-custom-cabinets/>

Kitchen Range:

Each side has either cabinets with pull-out shelves. Storage for pots and pans and organized lids as well as baking dishes. Upper cabinets for spices and cooking essentials.

Corner cabinets have garages (not rollup, need alternative) on counter and lazy susan under counter.

Glass on top corner shelf.

(Hood is metal.)

Kitchen Sink:

Right corner cabinet has garage (not rollup, need alternative) on counter and lazy susan under counter.

Left side upper is not angled corner, garage underneath on counter, lower is angled with lazy susan

Upper cabinets for dishes.

Glass on top corner shelves.

Pull out drawer/step in toe kick

Flip down drawer front under sink

Kitchen peninsula:

Drawers on left, right lower corner (shared with other view) is angled lazy susan.

Kitchen fridge/china:

Cookie racks and shelf (?) above fridge.

China cabinet has 24" deep base, 18" deep upper center section, 12" deep upper sides

Glass on upper and center as shown.

One side of center base is for hanging table clothes on rods.

Kitchen island:

Square island holds appliances with cabinets with narrow shelves.

Note: We need to fit a microwave in the kitchen somewhere. Need input.

Family desk:

Desktop open underneath, two open shelves above

24" base with to file drawers on left

12" uppers

Glass in upper cabinets

Camera den:

24" base

12" uppers

Garage on counter (not rollup)

Glass upper cabinet

Family room:

40" high cabinets flank fireplace, counter on top

Adjustable shelves above up to 8'

Shelf all the way across wall at 8'

Library window wall:

36' high cabinets on either side

Window seat with bi-fold or some kind of wide opening doors underneath (to hold guitars, violins, etc.)

Library vaulted wall:

Library adjustable shelves across entire vaulted wall

Sliding library ladder will be on that wall as well

Master fireplace:

Cabinets flank fireplace

Drawing is not completely accurate: need filters on outer doors and glass on inner doors like family room

Also need drawer on each side

Windows above
